

Beta
the play bike

the **FUORISTRADA CO.**

A successful beginning

It was a month full of emotions! The first month of Beta's new era in Greece was marked by success in the racing department. The whole effort is fully supported by Beta's new official dealer in Greece, **The Fuoristrada Co.**, the company that provides the Greek market with Beta's motorcycles.

The first official outing of Beta motorcycles in Greece took place during the first round of the Greek Enduro Championship in Karditsa. It was a tough race with very muddy conditions, tight time-checks and a long cross-country special test that tested the riders' stamina. Representing MOTO Magazine (www.motomag.gr) Andreas Glavas was riding the new Beta RR 520 in E3 class, but had some hard times coping with those extremely muddy conditions with a bike on whose saddle he had spent no more than a few hours. The new Beta dealer in Greece has provided MOTO Magazine with a new RR 520 as a long-term race motorcycle and A. Glavas will be racing that motorcycle at the Greek Enduro Championship and selected local races. He is also planning to take part at the Enduro World Championship round in Serres, Greece.

Many people got a glimpse of the new RR 450, equipped with the special factory stickers kit provided by Beta, while at the same time Mr. T. Antoniadis and Mr. S. Labrou, representing the new Beta dealer in Greece, were providing people with all the necessary information

Representing MOTO Magazine, Andreas Glavas had some rough times at Karditsa's deep ruts. He could only get an eighth place for the new RR 520

Under the red Beta tent, that was placed near the parc ferme of the race in one of the most crowded places of Karditsa, tenths of visitors could get a glimpse of the three stroke enduro bikes, the RR 400, the RR 450 and the RR 520. The representatives of **The Fuoristrada Co.** were there to provide people with all the necessary information concerning Beta's range of models. Greek people were really curious to learn the latest details on Beta's new dealership era in Greece.

But the triumph for Beta's motorcycles in Greek soil came two weeks later, at the second official participation of a new Beta motorcycle in Greek racing. Once more, it was Andreas Glavas, racing the RR 520, who won the first place at the overall standings of the second round for the regional scramble series that take part all over Attika. *"I wanted to maintain a steady rhythm in my riding, trying to avoid any mistake that would possibly lead to a fall. Luckily I could skip refueling, because the eight liters of my Beta's tank proved to be more than enough for the ninety-minute race"* said Glavas after the race.

It was a triumph for Beta motorcycles in just their second official participation in a race at Greek soil. A. Glavas got the first place overall and won the S3 class in the second round for the regional scramble series that take part all over Attika
