## **Traveling... Through a photographic lens**

Permanently based on Milan, photographer Giorgos Legakis seeks the right moment to capture the people and their stories. After leaving his native country, Greece, some months ago, Giorgos Legakis is in a quest for the appropriate business opportunities that the busy city of northern Italy is offering. Working as a worldwide freelance photographer, Giorgos Legakis is travelling through the world, feeling the vibes of each city and living in his own separate way every moment. Through the prism of his lens he is trying to make every captured moment seem eternal.

As the official photographer, for two and a half years in a row, of Moto Magazine ([www.motomag.gr](http://www.motomag.gr)), Greece's best-selling motorcycle magazine, Giorgos Legakis has got a full portfolio covering various fields, from fashion photography, travelling articles, motorcycle racing and many others. For the current season, Giorgos Legakis is following the MX1-MX2 world motocross championship, trying to pass every moment, every smile or every tear through his own optical prism.

Either by chasing the most fascinating moments of a motorcycle race, or by simply capturing the colors of spring in a picturesque village on his way, Giorgos Legakis is able to accompany his viewer to a unique trip in the fields of imagination. From everyday shootings of test motorcycles for MOTO magazine, to long photographic trips to countries such as Albania or Serbia, and from the prestigious annual race of the Motocross of Nations to an adventurous photographic trip to the lands of Mongolia, Giorgos Legakis is showing evidence of not only being capable of adjusting to every occasion, but also of approaching every subject through his, unique, optical philosophy.

But apart from the world of motorcycles, what distinguishes Giorgos Legakis, is his previous experience, as the owner of aciDropstudio studio, in the center of the city of Athens, for four years in a row. From human portraits to model books and product advertising, Giorgos Legakis has always been there to give his own approach to things. And as an original way of experiencing the unique style of people who ride motorcycles, Giorgos Legakis is putting to motorcycle culture his own personal signature at: <http://wearetheriders.blogspot.com/>.
